Profile

I have been creating visually my entire life; first a fine artist up until college, then an Architectural Illustrator and since 1990 a website designer.

Experience

Designed and produced websites

Designed and produced websites (partial list above) since 2000, working independently and in teams creating up to 400+ page websites. I have built custom templates, HTML5, Bootstrap 4, Dreamweaver CC, CSS3, jQuery, and ActionScript 2.0 & 3.0. I have created illustrations and logos with Adobe Illustrator and Adobe Animate and Photoshop CC.

Website Administrator, Los Angeles Film Teachers Association: 2009–2011

Designed and built interface using HTML, JavaScript and CSS. Maintained website, updated/built pages using MySQL database posted and coordinated events with LAFTA members, volunteers, studios and theaters.

Designer — 2006–2008

411Direct.com, web hosting company. I designed websites, banner ads, Flash Animations, logos and web and email ads using HTML, Flash and Photoshop. Used "ACT" and Excel to update the customer database and send out mailers.

Website Accessibility Evaluation and Repair — 2003–2005

California Endowment and Santa Monica College by finding and correcting Section 502 errors and re-coding site to comply with Section 502. In the case of The California Endowment, the objective was to bring the entire website up to "Bobby" Level-3 standards for website accessibility using HTML and Jaws.

Education

Academy of Entertainment & Technology Santa Monica College

Art Center College of Design Pasadena, CA • Illustration

University of California Irvine, CA • BFA, Cum Laude
